Pet First Aid

Our pets depend on us for their safety, wellbeing and happiness. But what do you do when your pet is having a medical emergency? You can't call 911. There's no EMS for our pets. We have to learn

how to provide the care they need. Live Safe Academy, LLC instructors have been teaching Pet First Aid since 2000. Depend on the school that professional pet sitters choose for learning animal CPR and first aid. When it comes to the safety of your four legged family members, only accept the best.

Date: February 21
Tuesday
